DO NOT PUT YOUR NAME ANYWHERE ON THIS SURVEY

GENERAL DIRECTIONS: Use a No. 2 pencil and fill in the circle that shows your answer. If you want to change your answer, please erase carefully. Please give **ONLY ONE** answer for each question, unless the directions for the question say "all that apply."

I am a: Male Female

I am in grade: 5 6 7 8 9 10 11 12

My overall grade average is: Excellent Very Good Good Average Below Average Poor

My ethnic background, or race, is: White Black Hispanic Other Asian or Pacific Islander Native American or Alaskan Native

After high school, I think I will: (choose the **ONE** that is most important to you)

Get a job Go to technical school Get married
 Go to college Join the military I don't plan to finish high school
 I'm not sure

DIRECTIONS: Below are some things that make up how you feel about school. Please fill in the circle that comes **CLOSEST** to showing how you feel about each of them. The higher the number, the more positive you are about each one.

School in general	DISLIKE ←	①	②	③	④	⑤	⑥	⑦ →	ENJOY
Teachers	NOT HELPFUL ←	①	②	③	④	⑤	⑥	⑦ →	HELPFUL
Subjects	BORING ←	①	②	③	④	⑤	⑥	⑦ →	INTERESTING
Classmates	UNFRIENDLY ←	①	②	③	④	⑤	⑥	⑦ →	VERY FRIENDLY

DIRECTIONS: If you or a close friend had a problem with alcohol, tobacco or other drugs, who would you be willing to talk to about it? Here is a list of people whom you might consider. For each one, fill in your answer. **WOULD YOU TALK TO:**

	YES	MAYBE	NO		YES	MAYBE	NO
A person my age	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	A parent	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

COMMONWEALTH OF PENNSYLVANIA
OFFICE OF THE GOVERNOR
GOVERNOR'S DRUG POLICY COUNCIL

March 1, 1995

Dear School Administrator:

In 1989, 1991 and 1993, the Governor's Drug Policy Council conducted a statewide survey on the use of and attitudes about alcohol and other drugs by school-aged youth. These surveys have been invaluable planning tools for state agencies to allocate resources and target drug prevention programs.

A fourth survey be conducted in the Spring of 1995 to include specific questions about violence in schools. Diagnostics Plus of State College, will work with the Department of Education to construct a stratified random sample of 60,000 students in grades 6, 7, 9 and 12 in public and nonpublic schools. Diagnostics Plus will distribute survey forms and instructions to participating schools so that they can be completed and returned for analysis by mid-May.

The stratified random sample includes your school and we encourage your district's participation in the survey. The survey requires a minimum investment of faculty, student and staff time and effort while yielding needed assessment data for drug and violence prevention planning.

School-specific data will not be released by the Commonwealth or the Contractor without your consent. The Contractor will prepare two reports: (i) a report aggregating Commonwealth data and comparing it with national data, and (ii) an analysis of the data for each of the four Commonwealth regions. **School specific data will not be reported to the Commonwealth.** Each participating school may contract with Diagnostics Plus to purchase its own data for a nominal processing fee.

You will be receiving a letter and a follow-up phone call from Diagnostics Plus to confirm your participation in the survey. Your prompt response will be appreciated. Thank you for your cooperation. If you have any questions or need additional information, please do not hesitate to call me at (717) 783-8626.

Sincerely,

A handwritten signature in cursive script that reads "Carol A. Williams".

Carol A. Williams

Instructions for Administering the
PRIMARY PREVENTION AWARENESS, ATTITUDE AND USE SURVEY
Diagnostics Plus, Inc.

1. Follow the attached script. You may make minor changes to reflect your teaching style, but the order of presentation and the thrust of the text **MUST NOT BE CHANGED**. This script has been designed to eliminate as many confounding factors as possible. Be sure that you do not omit the sentence about the voluntary nature of the survey.
2. Always refer to the instrument as a "survey" or a "questionnaire." Do not call it a "test."
3. Present the script in an unbiased and enthusiastic manner in order to increase the likelihood of accurate reporting.
4. **DO NOT WALK AROUND THE ROOM** while the students are completing the survey. Do not look at any student's questionnaire. Keep a blank survey at your desk from which to answer any questions from students.
5. Reinforce, when necessary, that all responses are confidential.
6. Do not speculate on how the survey results will be used, and do not encourage the students to do so.
7. While students are completing the survey, handle disruptions and interruptions with minimum response.
 - a. When answering a student's question, be matter-of-fact so that you do not influence his or her response.
 - b. "Just give your own opinion," or "Just think about the question and give your best answer" are usually sufficient.
 - c. It is best to send troublemakers out of the room as soon as you sense that they are not taking the survey seriously.
8. This survey includes a self-reported use question about "dactyls," which are three-syllable metric or poetic feet. In PPAAUS, it is a lie-indicator item. It is absolutely essential that you do not tell the students what it is. Our suggested response to requests for a definition of the bogus drug is, "I think it's another chemical substance. I'll try to get more information about it."
9. Be sure that you have all the supplies you need before the survey session begins. You will need:
 - a. an adequate number of surveys;
 - b. extra pencils and erasers;
 - c. an envelope for the completed surveys; and
 - d. your script.
10. Do not collect the completed surveys yourself; choose a student who is liked and trusted by a great majority of the class. The student will collect the surveys, shuffle them, place them in an envelope, and seal it.
11. Collect **ALL** surveys. Put any blank surveys in the envelope of completed questionnaires. Do not allow any student to leave the room with a questionnaire. Other classes may be taking the survey later in the day.
12. Read the script through a few times before the survey session to familiarize yourself with the procedure and to note any small changes you will make in your presentation.

Your school administration will advise you how to return completed surveys to the office.

THANK YOU VERY MUCH FOR YOUR COOPERATION

Teacher Script -- PPAAUS

Governor's Drug Policy Council and Diagnostics Plus, Inc.

Instead of our usual activity today, this class will be filling out a student questionnaire. In Pennsylvania, 15,000 students in this grade will take part in this survey.

This is NOT a test, so there are no right or wrong answers. What's RIGHT is what's TRUE for you. Please don't put your name anywhere on the survey. The people who are doing this study want to know about the OVERALL attitudes in the state, not what any ONE student thinks.

This is what the questionnaire looks like. (*Hold it up for the class to see.*) You'll be reading the questions and marking your answers right on the survey.

Some of the questions on this survey deal with drugs and alcohol. I want you to feel ABSOLUTELY SURE that no one in this school or this district knows which questionnaire belongs to which student ... so I'm going to stay at the front of the room while you're working on this, and I won't look at anyone's answers. If you don't want to answer a certain question or group of questions, you don't have to.

When everyone is finished, I'm going to ask someone to collect your questionnaires row by row, to mix them up while they're being collected, and to NOT look at anyone's answers. Then all of the questionnaires will go into this envelope, and it will be sealed. It won't be opened until it's in central Pennsylvania with the people who are doing this research.

Does everyone have a pencil and eraser? (*Distribute supplies to those students who need them.*) I'm going to hand out the questionnaires now. Don't begin until I tell you to start. (*Distribute the surveys or ask a student to distribute them. When all students have a survey, continue.*)

Let's read the general directions together, right after the words "DO NOT PUT YOUR NAME ANYWHERE ON THIS QUESTIONNAIRE." "Use a Number Two pencil and fill in the circle that shows your answer. If you want to change your answer, please erase carefully. Please give ONLY ONE answer for each question, unless the directions for the question say 'all that apply.'"

Before each section of the questionnaire, you'll find specific directions. Read them carefully before you go on to answer the questions.

You may begin now. THERE WILL BE NO TALKING UNTIL EVERYONE IS FINISHED. If you have any questions while you're filling in this survey, leave your questionnaire at your seat and come to my desk, and I'll try to help you. When you've finished answering the questions, put your survey on your desk, and sit QUIETLY until everyone else has finished. After all of the surveys have been collected, we can talk about the questionnaire, if you'd like to.

When all students have completed the questionnaire, ask the designated student to collect them. (Choose a student who is liked and trusted by the rest of the class.) Be certain that the collector DOES NOT look at anyone's survey, and be certain that ALL questionnaires are returned. Keep one copy for yourself and place all other unused surveys into the collector's envelope.

Re: Questionnaires for Governor's Drug Policy Council survey

**PLEASE SURVEY YOUR STUDENTS
BEFORE MAY 14TH**

Enclosed are *Primary Prevention Awareness, Attitude and Use Surveys* for your school. Please make sure you have an adequate supply. Call immediately if you need more questionnaires.

Also included here are:

- 1) Teacher instruction sheet (1 page);
- 2) Teacher script (1 page);
- 3) Envelopes for the classroom packages; and
- 4) A sample letter to parents.

Please copy and distribute to each classroom participating in PPAAUS:

- a quantity of surveys equal to total classroom enrollment plus one;
- one copy of the teacher instructions;
- one copy of the script;
- a memo from your office noting survey date and time, instructions for returning the surveys to a central collection location, and importance of confidentiality.

Questionnaires and instructions should be distributed a day or two before the survey date, in order to give teachers time to familiarize themselves with the script and the instrument. In your memo to teachers, please stress the importance of students NOT seeing the survey before they complete it.

PLEASE SAVE THE LOWER PORTION OF THIS MEMO
