

Waiver for Continuing Education For Law Enforcement Officers

There are NO WAIVERABLE SUBJECTS for Municipal Police Officers or Deputy Sheriffs for 2012.

The Board's policy on partial waivers of constables' continuing education training for municipal police offices or deputy sheriffs recognizes and waives attendance for only those topics that are offered both in the municipal police officer in-service program or the deputy sheriff's continuing education program, and the constables' continuing education program. If there are no subjects in common among the training programs in a given year, then there are no continuing education waivers for municipal police officers or deputy sheriffs in that year. Since there are currently no subjects in common among the training programs, there are no continuing education waivers for municipal police officers or deputy sheriffs in 2012. See Title 37 Law. Chapter 431, for standards and procedures relating to the certification of constables and deputy constables.
