

2023-24 School Mental Health Grants Funding Announcement Q&A Tracker

Updated on February 1, 2024 at 4 PM

***New Questions & Responses Added in Red**

WEBINAR INFORMATION:

Tuesday, February 6; 3 - 3:30 PM. [Register Here.](#)

Webinar WILL be recorded and added as a resource on PCCD's Website.

About this Document:

This guide will provide an overview of questions and answers regarding the 2023-24 School Mental Health Grants funding announcement and application process, which opened on January 10, 2024. Responses will be provided as staff is able to process questions through February 29, 2024.

Questions?

Please contact PCCD staff at RA-CD-SSSC@pa.gov with '2023-24 School Mental Health Grants' in the subject line.

Table of Contents

- 1. Eligible Activities/Expenses 3
- 2. Application Process 4
- 3. Eligible Applicants 6

1. Eligible Activities/Expenses

1.1. Can we apply for the same items that were supported under the 2022 funding announcement even though the FY22 grant doesn't end until June 30, 2024?

Answer: Yes, you can apply for the same items that are supported until the end of your current grant, but you will need to specify this within the budget detail justification and pro-rate the costs within the first year given that these expenses are currently supported.

1.2. Can IU's apply to create programs/trainings that would serve all districts within their service area? For example, can an IU apply to hire and provide social workers/LPC's to districts, and have staff trained as trainers in trauma informed schools and classrooms?

Answer: Applicants can apply for a project that serves multiple districts as long as funding is used to support activities listed under section 5, Eligible Program Activities and Expenses, under the funding announcement. It is incumbent upon the applicant to submit an application that they believe complies with the statute.

1.3. Do we have to meet all Level 1 standards of the baseline criteria in order to use these funds for items in Level 2 or Level 3 or any other eligible project activity?

Answer: Level 1 represents the most basic behavioral health safety elements a school entity should have in place. If your school entity does NOT meet all Level 1 Baseline Criteria, you should utilize your grant funding on one or more of the available activities to meet the Level 1 standard OR explain to PCCD how other resources or means are being utilized to satisfy the criteria in the baseline criteria questions listed within Egrants. Additional information will be requested of any school entity that has gaps within the Level 1 criteria. Once Level 1 is met, school entities can expend funding on any other eligible mental-health related project activity.

1.4. In reference to the 23-24 School Mental Health Grant and the revised [Behavioral Health Criteria](#), do school districts have to arrange for the assessment to be conducted by an individual recognized to perform such assessments on the PCCD School Safety and Security Assessor Registry? Or can a District committee perform a self-assessment of our student assistance and behavioral health support needs?

Answer: School districts (and all school entities, for that matter) are not required to arrange for an assessment to be conducted by an individual on the [PCCD School Safety and Security Assessor Registry](#). A school entity may perform a self-assessment at any time using the [Student Assistance and Behavioral Health Support Assessment Criteria](#). However, for FY23-24 School Mental Health grant purposes, if a school district (or school entity) is seeking funding to meet any recommendation made in their assessment outside of Level 1 Behavioral Health baseline criteria and their school entity does not currently meet all Level 1 criteria, the assessment must be conducted by an individual on the PCCD School Safety and Security Assessor Registry.

1.5. Our district is in the process of creating and expanding our PBIS system. The district's School Psychologist is trained as a trainer and is responsible for assisting district staff in implementing the initiative. Can we put the salary/benefits of the school Psychologist into our School Mental Health Grant?

Answer: Per statute, grant funding must not be used to supplant/replace state, federal or local funds that would otherwise be available to provide for program-related services. PCCD funding is to be used in addition to other funds that are made available for services.

1.6. I wanted to make sure that we will be able to use this funding for contracted behavioral health services. Please let me know.

ANSWER: Yes, the School Mental Health grants can be used to support contracted behavioral health services.

1.7. I noticed the published May 2023 revisions to the Behavioral/Mental Health (B/MH) and Physical Security Baseline Criteria (PSBD). As I encourage school districts to work towards PCCD Level 3 standards, I was wondering if the May 2023 revisions serve as a replacement for 2021 standards developed by PCCD or if they are in addition to the 2021 standards.

Answer: The Revised Baseline Criteria Standards (2023) have replaced the 2021 standards. If you are interested in learning the revisions made between the 2021 standards and the May 2023 version, please view the crosswalk documents included on the [Baseline Criteria \(pa.gov\)](#) webpage. A webinar about the Baseline Criteria Standards for School Safety was recently posted on that webpage to provide an overview of these Standards and their development.

1.8. I have two school guidance counselors. Am I permitted to use the funds to pay for one of them to obtain the credits and coursework necessary to become a certified School Social Worker? Additionally, would I be able to use the funds to pay their salary, in a newly created position as a social worker, with a new job description? The position would begin with the 24-25 school year and our budget has not been developed yet.

Answer: As each request is unique to each applicant, PCCD cannot weigh in on individual proposals prior to application (e.g., there may be other factors, such as supplantation or meeting Level 1 Baseline Criteria, that we don't have context for at this time based on your question). On its face, however, all of what you are proposing here appears to be eligible, but we cannot confirm that officially until we see your full application.

1.9. With regard to social workers: I have followed all the links, including section 1306-B(J)(1-30). The words used are licensed, qualified. It is critical that we know exactly what PCCD is looking for as we do not have a social worker and we need this defined (regarding the credentials/requirements).

Answer: School entities might find the newly developed [webinar](#) Baseline Criteria Standards for School Entities helpful in finding clarification in eligible activities as well as identifying needs of their schools. In recognition of broad workforce challenges, the reframed criteria provide greater flexibility for school-based mental health services/supports that meet Baseline Criteria (e.g., contracted services) while aligning with statutory requirements related to school safety and mental health. While we recognize that the language of Section 1306-B(j) references specific professions, several activities also allow for flexibility in service provision.

2. Application Process

2.1. I just logged into my Egrants account and I am unable to find the grant application for this grant. Can you help?

Answer: In order to apply and access the School Safety and Security Funds, applicants must FIRST register for [PCCD's Egrants system](#). Please note that PCCD's Egrants system is separate and distinct from the PA Department of Education's Egrants system. If you are already registered within the system, but do not have access to the school entity that you are associated with, please contact the PCCD Egrants helpdesk for assistance at (717) 787-5887 or (800) 692-7292 and select option 9 and then option 6, when prompted. You can also email the PCCD Egrants helpdesk at: RA-eGrantsSupport@pa.gov.

2.2. Who should sign the signature page and where do I attach it?

Answer: An individual with documented authority to sign contracts on behalf of your organization must sign on the top, right side of the page (e.g., the Chief School Administrator, such as the Superintendent or the Board Chair). The Attesting Officer signature can be another organization official that can attest to the validity of the person signing (e.g., another Board Member or Business Manager). The executed signature page (page 2 of the application) must be uploaded to the Project Summary section of your application. A guide to assist you with this is available on our website at [Signature Page Instructions](#).

2.3. I know my school has received funding in the past, but due to administration changes, we are unsure who is registered and who has access. What should we do?

Answer: Please contact the PCCD Egrants helpdesk for assistance at (717) 787-5887 or (800) 692-7292. You can also email the PCCD Egrants helpdesk at: RA-eGrantsSupport@pa.gov. They will be able to provide you with information on who may be registered as a User Manager within your school that can assist you with obtaining the required roles.

2.4. In the past, we did not have to report any information within the Federal Transparency Act Certification section in Egrants except the address of our school. Are we now required to fill out this entire section, including the UEI number?

Answer: Since funding under this specific solicitation is federal ARPA funds, you will be required to provide all information requested in this section.

2.5. Does there need to be a separate application for Meritorious Grants and Mental Health Grants? If yes, is the dual budget needed for both grants for Physical Security (PS) and Mental Health (MH) or only if needed?

Answer: For the FY23-24 school safety grants, school districts should submit a separate application under each noncompetitive solicitation. Both noncompetitive solicitations (i.e., Meritorious and School Mental Health) only require one budget.

2.6. The project period dates of 1/1/24 to 12/31/25 are challenging to align with a school year budget, particularly when using funds for staff. Does PCCD offer any wiggle room to address this issue?

Answer: PCCD appreciates that schools may find the current timeframe challenging to implement over the course of a school year. Nothing precludes a school from crafting their grant around the school year (e.g., budget for school year 24-25) or from taking advantage of a project modification request to extend the life of their funding past the December 31, 2025 end date. However, please note that grant extensions should not be requested past 6/30/2026 as PCCD must be able to ensure that all payments for eligible expenditures are made prior to the 12/31/2026 end date of the federal ARPA funding. PCCD staff may also consider requests to move the start date of the project on a case-by-case basis; however, PCCD staff will be required to ensure that funding is being used to supplement, and not supplant, current funding.

2.7. On the grant application signature page, there is a line for the solicitor and controller. Must those be signed to submit the application? We have never had our solicitor sign any grant application before. Please let me know.

Answer: The solicitor and controller are not required to sign the signature page to submit the application. Applicants ARE required, however, to provide two signatures: the Chief School Administrator (top right side of the signature page) and attesting officer (top left side of the

signature page). The Chief School Administrator should be Superintendent or Board Chairperson and the attesting officer can be any school official such as a Board Member or Business Manager.

3. Eligible Applicants

3.1. Who is eligible to apply under the 2023-34 School Mental Health Grants?

Answer: [Per Section 1315.1-B of the PA Public School Code](#), only school districts, area career and technical centers (CTCs), intermediate units (IUs), and charter schools, including regional charter schools and cyber charter schools) are eligible to apply under the **2023-24 School Mental Health Grants**.

3.2. Our school is currently working on expending the previous School Safety Grant. Are we permitted to apply for the new grant that just out as well?

Answer: Yes. School districts, area career and technical centers (CTCs), intermediate units (IUs), and charter schools, including regional charter schools and cyber charter schools are eligible to apply under the **2023-24 School Mental Health Grants**.
