Lead County: Lancaster

Probation Representative(s): Cheri Modene, Director, Lancaster County Juvenile Probation

EPIS Representative: Dawn Karoscik

Description of Service:

Lancaster County Youth Intervention Center - The Youth Intervention Center opened its doors on March 9, 2002 and is located on the Sunnyside Peninsula at 235 Circle Avenue in Lancaster, Pennsylvania. The Center provides detention, shelter care services, and alternative treatment programs for males and females from the ages of 10 to 18. The Detention program has a 48 bed capacity, the Shelter program has a 36 bed capacity, and P.U.L.S.E. Weekend Program has a 12 bed capacity.

The P.U.L.S.E. - Providing Uplifting Learning Skills to Excel - Evening Treatment Center (ETC) was started in August 2016. The ETC serves adolescents who are involved with the Office of Juvenile Probation or the Children and Youth Agency. The program is offered to males and females ages 13-18. Participants can be referred to the program in two ways: court-ordered by Juvenile Probation after disposition or recommended by a Children and Youth Caseworker. Participants are transported to the program after school and then transported home at 8:30pm as long as they live within a 12-mile radius of the facility. During the summer months, the participants are transported from their homes to the program. The length of the program is determined by the participant's treatment needs. At a minimum a youth, will be in the program 7 weeks but typical length in the program is 10-12 weeks. The participant's goals, program length, and groups will be determined based on recommendations from the Juvenile Probation Officer or Children and Youth Caseworker, consultation with the parents/guardians, and results of various assessments. The ETC participants participate in evidence-based programs, as well as psycho-educational groups. While at the program, participants receive an evening meal and snack. They are given time to complete their homework, as well as recreation time.

Girls Circle is a structured support group for girls which integrates relational theory, resiliency practices, and skills training. It is designed to increase positive connection, strengths, and competence in girls. It aims to counteract social and interpersonal forces that impede girls' growth and development by promoting an emotionally safe setting and structure within which girls can develop caring relationships and use authentic voices. A pre and post is administered to rate overall feelings of self-esteem, self-worth, and self-acceptance. This is a closed group with a minimum of 4-6 participants. The group is facilitated by 2 staff and runs once a week for 8-12 weeks.

The four characteristics of a service found to be the most strongly related to reducing recidivism:

1. **SPEP™ Service Type:** Group Counseling

Based on the meta-analysis, is there a qualifying supplemental service? No

If so, what is the Service Type? There is no qualifying supplemental service

Was the supplemental service provided? N/A **Total Points Possible for this Service Type:** 30

Total Points Received: 30 **Total Points Possible:** 35

2. **Quality of Service:** Research has shown that programs that deliver service with high quality are more likely to have a positive impact on recidivism reduction. Monitoring of quality is defined by existence of written protocol, staff training, staff supervision, and how drift from service delivery is addressed.

Total Points Received: 10 **Total Points Possible:** 20

3. Amount of Service: Score was derived by calculating the total number of weeks and hours received by each youth in the service. The amount of service is measured by the target amounts of service for the SPEP™ service categorization. Each SPEP™ service type has varying amounts of duration and contact hours. Youth should receive the targeted amounts to have the greatest impact on recidivism reduction.

Points received for Duration or Number of Weeks: 0
Points received for Contact Hours or Number of Hours: 0

Total Points Received: 0 **Total Points Possible:** 20

4. Youth Risk Level: The risk level score is compiled by calculating the total % of youth that score above low risk, and the total % of youth who score above moderate risk to reoffend based on the results of the YLS.

<u>13</u>	youth in the cohort are Moderate, High, Very High YLS Risk Level for a total of youth	<u>12</u>	points
<u>5</u>	in the cohort are High or Very High YLS Risk Level for a total of	<u>13</u>	points

Total Points Received: 25 **Total Points Possible:** 25

Basic SPEP™ Score: 65 total points received out of 100 points. Compares service to any other type of SPEP™ therapeutic service. (e.g. individual counseling compared to cognitive behavioral therapy, social skills training, mentoring, etc.)

Note: Services with scores greater than or equal to 50 show the service is having a positive impact on recidivism reduction.

Program Optimization Percentage: 68% This percentage compares the service to the same service types found in the research. (e.g. individual counseling compared to all other individual counseling services included in the research.)

The SPEP™ and Performance Improvement

The intended use of the SPEP™ is to optimize the effectiveness of reducing recidivism among juvenile offenders. Recommendations for performance improvement are included in the service Feedback Report, and these recommendations are the focus of the Performance Improvement Plan, a shared responsibility of the service provider and the juvenile probation department.

1. Regarding Quality of Service Delivery:
 - a. Written Protocol:
 - i. Document when One Circle Foundation reaches out with new materials and ensure that the most up to date facilitator guide is being utilized
 - b. Staff Training:
 - i. Develop a training policy that specifies what training is required and any additional steps needed to take before staff can deliver the service
 - ii. Provide routine booster trainings relevant to the service
 - c. Staff Supervision:
 - i. Ensure supervisors observe the delivery of this service to ensure fidelity and quality of the service at predetermined time frames and consider utilizing the Girls Circle Fidelity Checklist
 - ii. Ensure staff are receiving written feedback regarding the observations
 - iii. Reference the quality of service delivery related to this service in the yearly performance reviews
 - d. Organizational Response to Drift:
 - i. Develop a written policy that outlines how to prevent drift from occurring while delivering this service, possibly utilizing tracking sheets
 - ii. Within the written response to drift policy, develop a process to document the utilization of the drift policy
 - iii. Ensure that the organizational response to drift policy includes specific action steps for the agency to take to avoid drift, including an “if-then” approach or specific corrective action steps to address departure from the fidelity and quality of service deliver
 - iv. Utilize the Girls Circle pre and post test on a consistent basis
 - v. Develop a process to evaluate the data collected from the pre and post tests to adapt and improve service delivery
2. Regarding Amount of Service:
 - a. Consider ways to increase the dosage and duration of this service to better match research supported targets
 - b. Maintain communication with JPO from referring county (Lancaster) to continue matching research recommendations for the targeted amount of service and appropriate length of stay for each youth
3. Regarding Risk Level of Youth Served:
 - a. Maintain collaboration with the Lancaster County Office of Juvenile Probation to identify the appropriate risk level for each youth who is completing the service
 - b. Maintain collaboration with the Lancaster County Office of Juvenile Probation to identify appropriate service allocation based on specific YLS domains and responsiveness factors
