Project Period: January 1, 2022 to December 31, 2023

Description and Recommendation:

On September 3, 2021, PCCD announced the availability of \$24 million in state funding over a 24-month period from January 1, 2022 through December 31, 2023 to support FY 2021 Violence Intervention and Prevention (VIP) Grants.

The purpose of VIP funding is to provide grants and technical assistance to address community violence throughout the Commonwealth. For purposes of this funding announcement, 'community violence' is defined as intentional interpersonal violence (e.g., gun violence, group violence) in areas of Pennsylvania with high rates of violent crime using Uniform Crime Report offense data or similar local crime statistics. Funding is intended to prioritize support for effective local intervening and preventive measures to stop gun and group violence that is occurring across the state.

Community-based organizations, institutions of higher education, municipalities, district attorneys, and counties were eligible to apply.

PCCD reviewed 340 initial funding requests received as of the October 15, 2021 deadline. Staff and the VIP Workgroup are recommending approval of 40 applications requesting a total not to exceed \$15,708,048 in state VIP funds, pending resolution of any outstanding programmatic and/or fiscal concerns.

**NOTE:** This first round of awards will be followed by presentation of recommendations from PCCD staff and the VIP Workgroup for a second and final round of 2021 VIP grants in January 2022 at the conclusion of an outreach and coordination phase for a subset of additional recommended projects.
