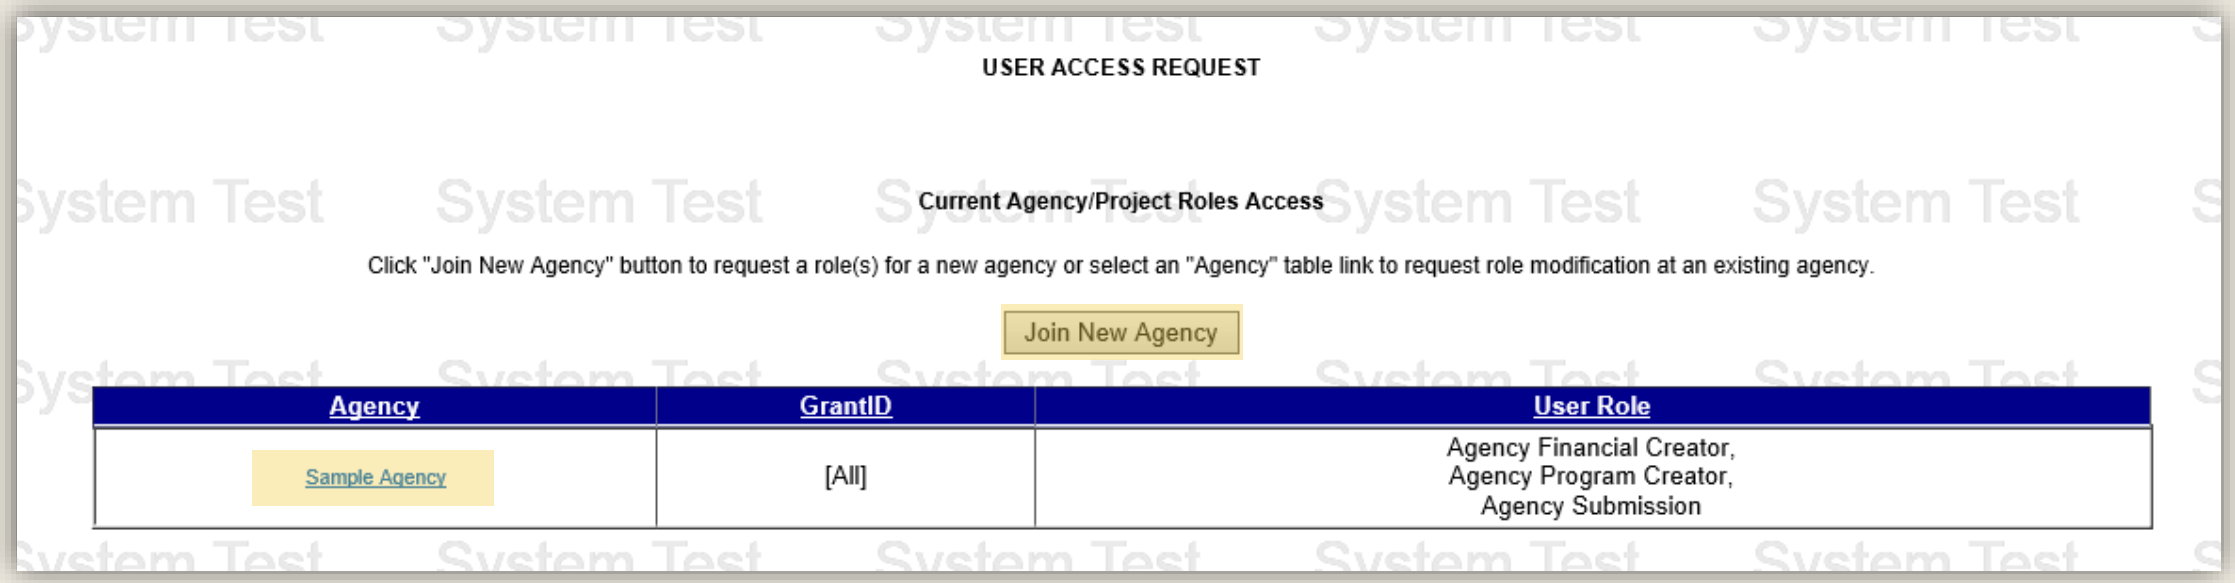
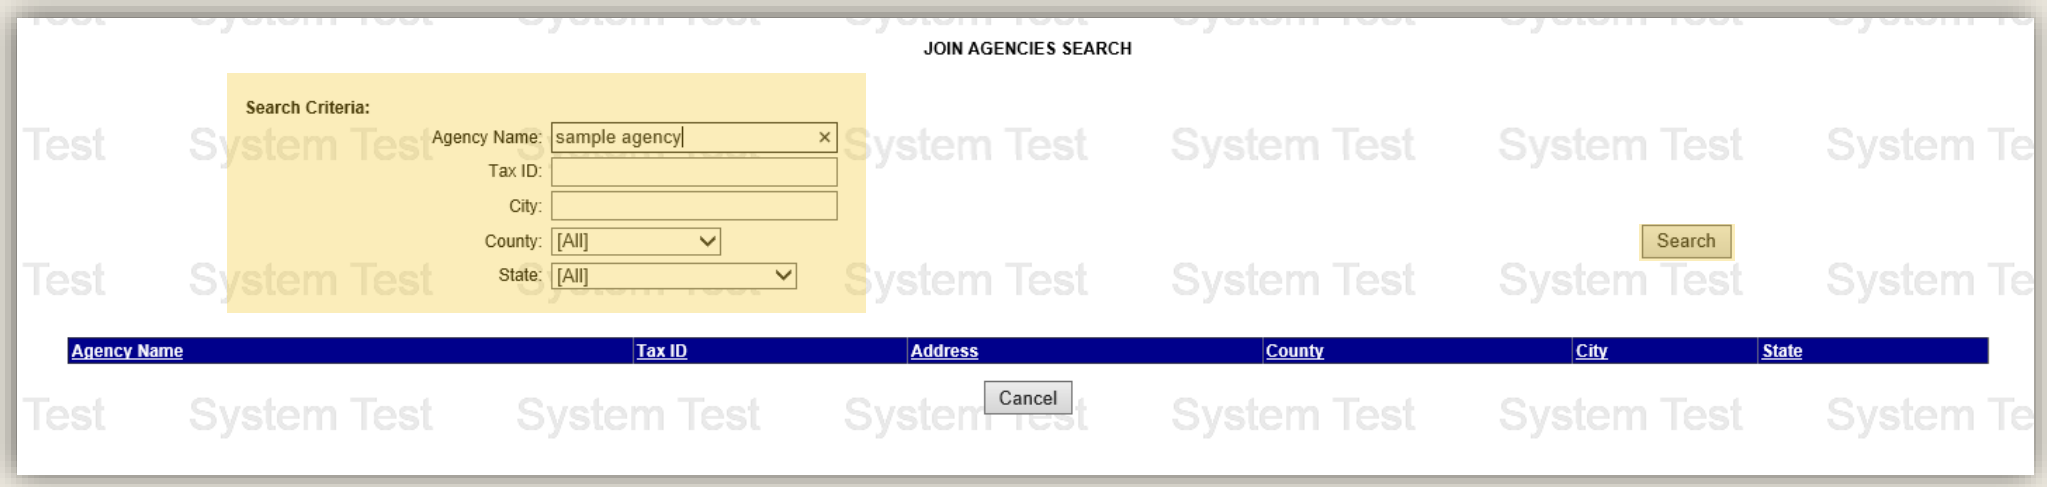
2. REQUEST ACCESS TO AGENCY ROLES

If you see the **Agency** you wish to join in the table located on the User Access Request page, click on the linked **Agency name**. If the Agency you need access to is not listed in the table, click the **Join New Agency button**.

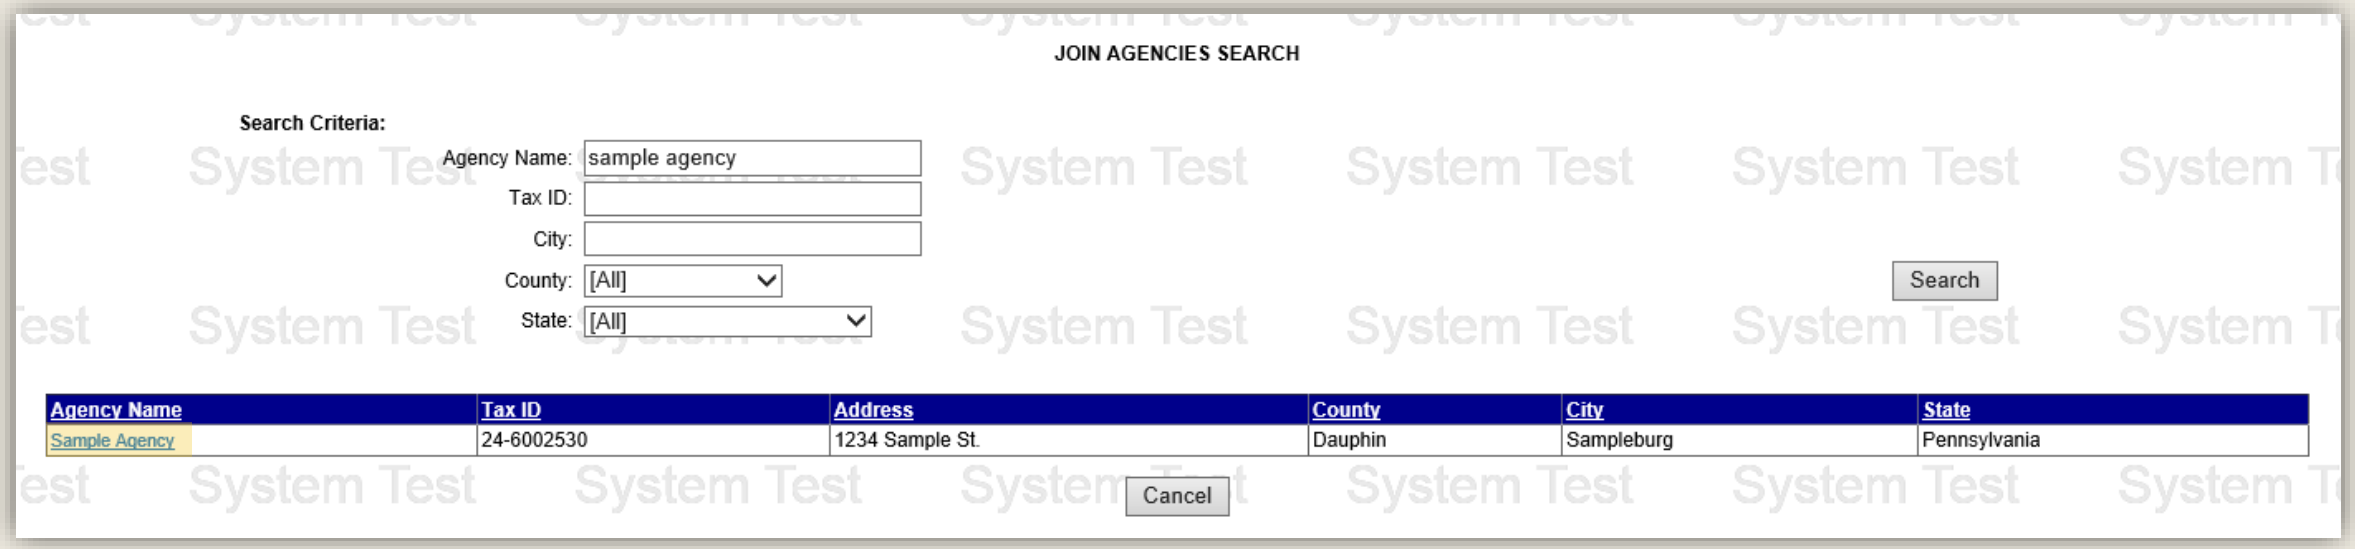
Most new users will need to click the Join New Agency button.



On the **Join Agencies Search** page, you'll enter information in one or more of the **Search Criteria** fields then click the **Search** button. It is best to enter as little information in the search criteria fields as possible.

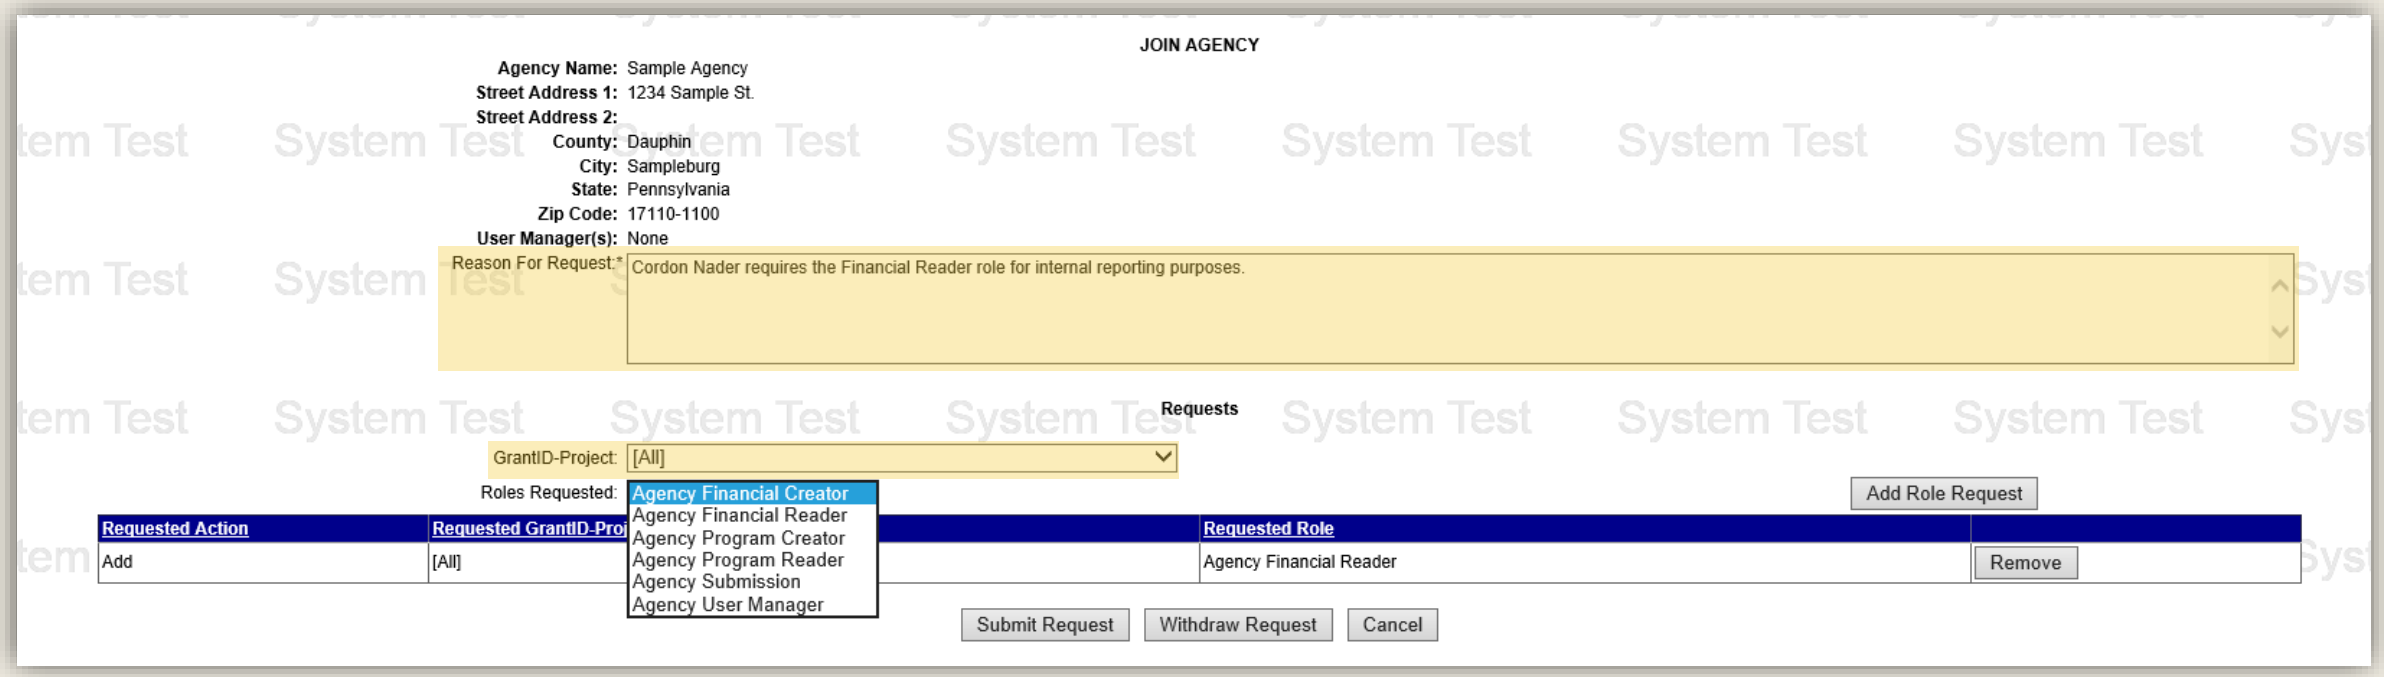


Search results will appear in a table below the Search Criteria section. Click on the **Agency Name** link that matches your Agency.



If your agency does not appear in the search results or has never applied for funding from PCCD through the PCCD Egrants system, complete and submit the Egrants Agency Registration Request Form. You will not be able to request Agency Roles until the Agency is registered with Egrants.

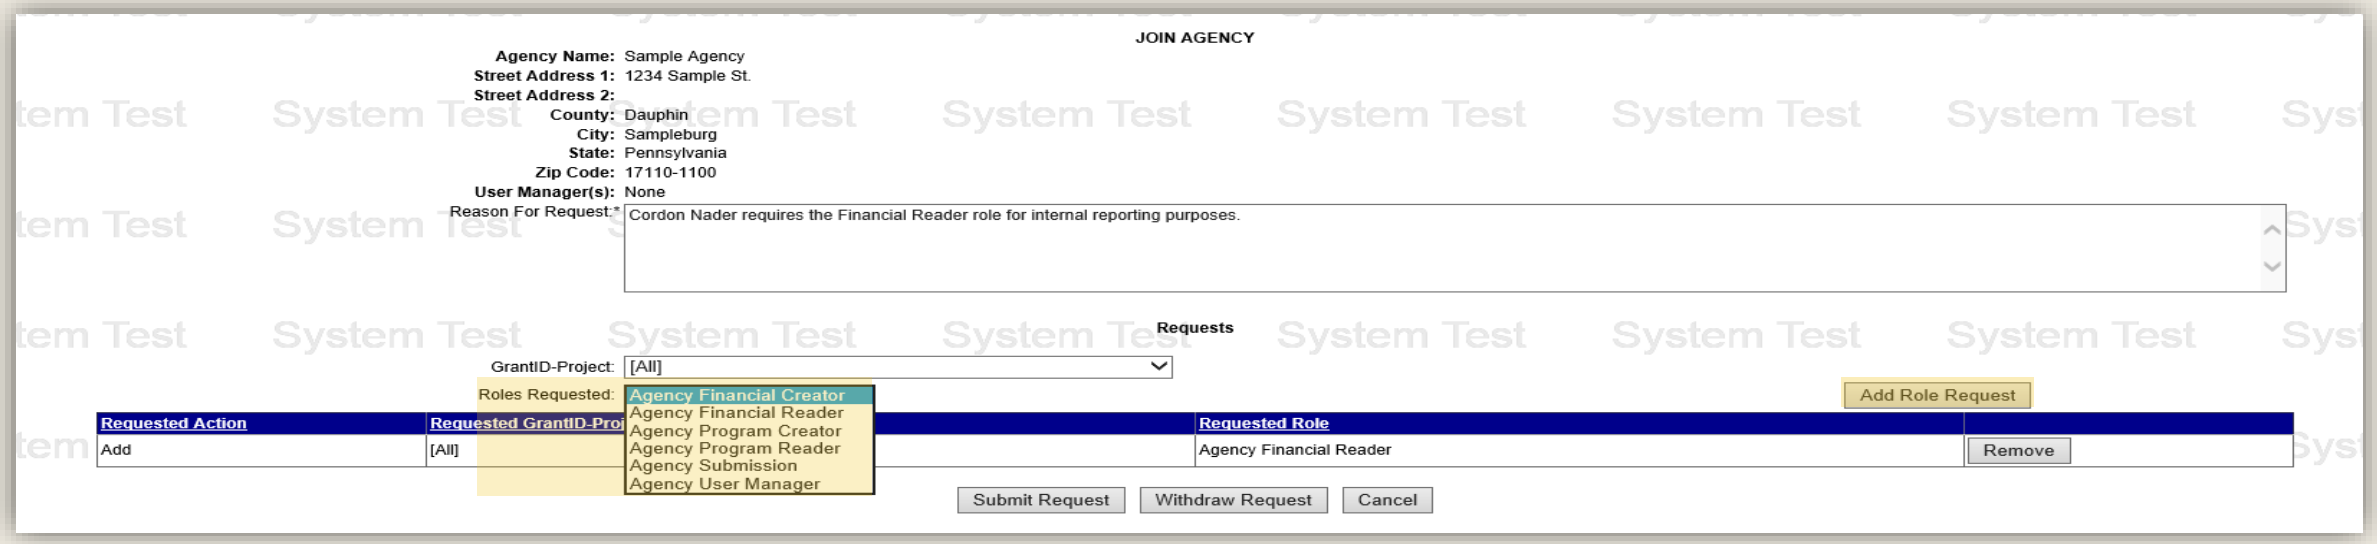
On the Join Agency page, complete the **Reason for Request** and choose which **GrantID-Project** you are requesting access to. If you would like access to all the grants under the Agency's name, choose the 'All' option.



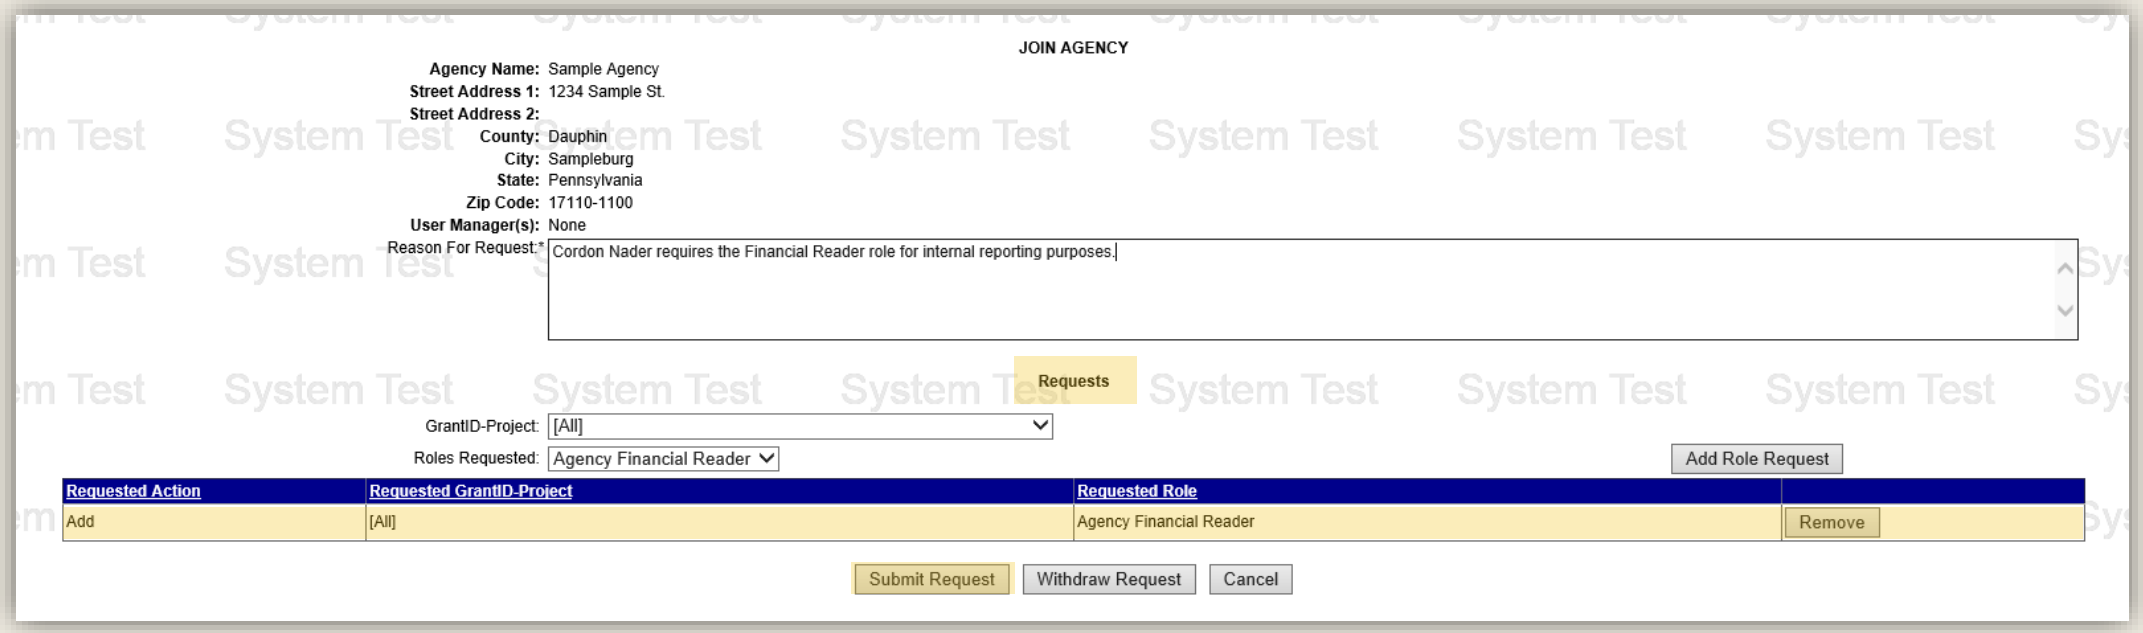
Information on **Roles** can be found on the next page.

Access to the Agency's grants are separated into six unique roles. To add a role, select a role from the **Roles Requested** menu and click the **Add Role Request** button. Users may request up to six roles. Please note:

- **Financial Creator** can **view and create** fiscal information (manage budget section information, fiscal reports, etc.)
- **Financial Reader** can **view** fiscal information
- **Program Creator** can **view and create** program information (manage program section information, program reports, etc.)
- **Program Reader** can **view** program information
- **Submission** can **submit grant forms** like applications, modification, and continuations
- **User Manager** can **manage user roles** for the Agency's grants (will still need other roles if performing other duties)



Once all desired roles have been added to the **Requests** table, click the **Submit Request** button.



3. CONFIRM REQUEST SUBMISSION

You can confirm that your request was submitted by looking at the **Request History** table, which should show the **User Roles requested** as well as an **In-Process** request **Status.**
